1. Introduction

As an accredited training provider, it is essential that Delyn Safety UK conducts all its activities with professionalism, integrity and transparency to ensure continued confidence within the industry and stakeholders of the company.

Delyn Safety UK prides itself on providing a high-quality service and takes great care to ensure that all policies and processes are followed. To achieve this a comprehensive Centre Closure and Approval Withdrawal Policy is enacted under the company's governance and is available publicly on the company's website.

2. Responsibility for the Policy

The Managing Director has overall responsibility for ensuring this policy complies with our regulatory and ethical obligations, and that all those under its control comply with it.

The management team have day-to-day responsibility for implementing this policy, monitoring its use and effectiveness, dealing with any queries about it, and auditing internal control systems and procedures to ensure the policy is followed in the event of Centre closure or withdrawal.

3. Scope

This policy applies to all employees and any other individuals affiliated with Delyn Safety UK. It covers what would happen in the unlikely event of the Centre closing, merging or the qualification/approval being withdrawn.

4. Centre Closure

In the unlikely event that Delyn Safety UK ceases trading or withdraws from delivering regulated qualifications, the company would advise all relevant stakeholders as soon as possible that this was the case.

Delyn Safety UK is responsible for protecting the interests of learners continuing to progress through their planned qualification and will need to provide details to the relevant awarding body of how this will be done through the arrangements the company put in place.

Where it is not possible for learners to continue to progress on their qualification through Delyn Safety UK, the company will look at finding alternative providers that have existing approval to offer the qualifications from the awarding body.

5. Centre Merger

In the unlikely event that Delyn Safety UK were to merge with another training provider, the Centre that retains the governance and management of the contractual arrangements would contact the relevant awarding body to discuss the merger before it has taken place.

Delyn Safety UK would set out the transitional arrangements that will be in place whilst the merger is facilitated in order to ensure the interests of the candidate, and the integrity of the qualification offered are maintained. This may include:

- A communication plan to learners about the merger including any data protection arrangements required for the transfer of registration to the governing centre.
- Any new qualification approval requirements it will have.
- Changes to quality assurance arrangements including staff resources for assessment and internal quality assurance and any additional centre contacts.

6. Qualification/Approval Withdrawal

If a qualification is being withdrawn by a regulated awarding body, adequate notice will be given to ensure that learner's interests are protected.

In some cases, an awarding organisation may redevelop a qualification to ensure that it remains current and fit for purpose and a replacement qualification launched. An awarding organisation may withdraw a qualification without a replacement being launched.

In the event of a qualification or centre approval being withdrawn due to an awarding organisation applying sanctions to Delyn Safety UK, learners' interests will remain protected, and the company will work with the awarding organisation to find alternative providers that have existing approval to offer the qualifications from the awarding body.

In all cases, the awarding organisation has a duty to ensure that it keeps centres informed of its intentions in relation to a qualification it offers.
